STATEMENT

A new road has been recently opened leading directly from U. S. Highway 90 to our nursery a distance of only $4\frac{1}{2}$ miles. This road leaves Highway 90 at a point $\frac{1}{2}$ Mile north of Theodore, Alabama and is marked by a large red arrow with "Flowerwood Nursery". The distance to Mobile by this route is very little more than by Highway 90 and the road is by Mobile Bay. (see map on back of cover).

Persons visiting the Bellingrath gardens can go by the nursery on an all paved road that is no longer than the route by Highway 90.

This year we have over 500,000 Azaleas and the largest collection of big specimen Indica Azaleas of any nursery in America. We have over 200,000 Camellias including some fine specimen plants up to ten feet high.

We hope you will have an opportunity to visit our nursery and allow us to show you what we have without any obligation to buy. During Azalea Blooming season our Nursery and Gardens on Dog River are a sight worth seeing and the public is always welcome.

We have a set of slides showing in natural colors many beautiful Camellia blossoms and Azalea Gardens in bloom. We will be glad to lend these to garden or other clubs interested in showing them.

TERMS OF BUSINESS

Cash with order for immediate shipment, 3% discount for cash.

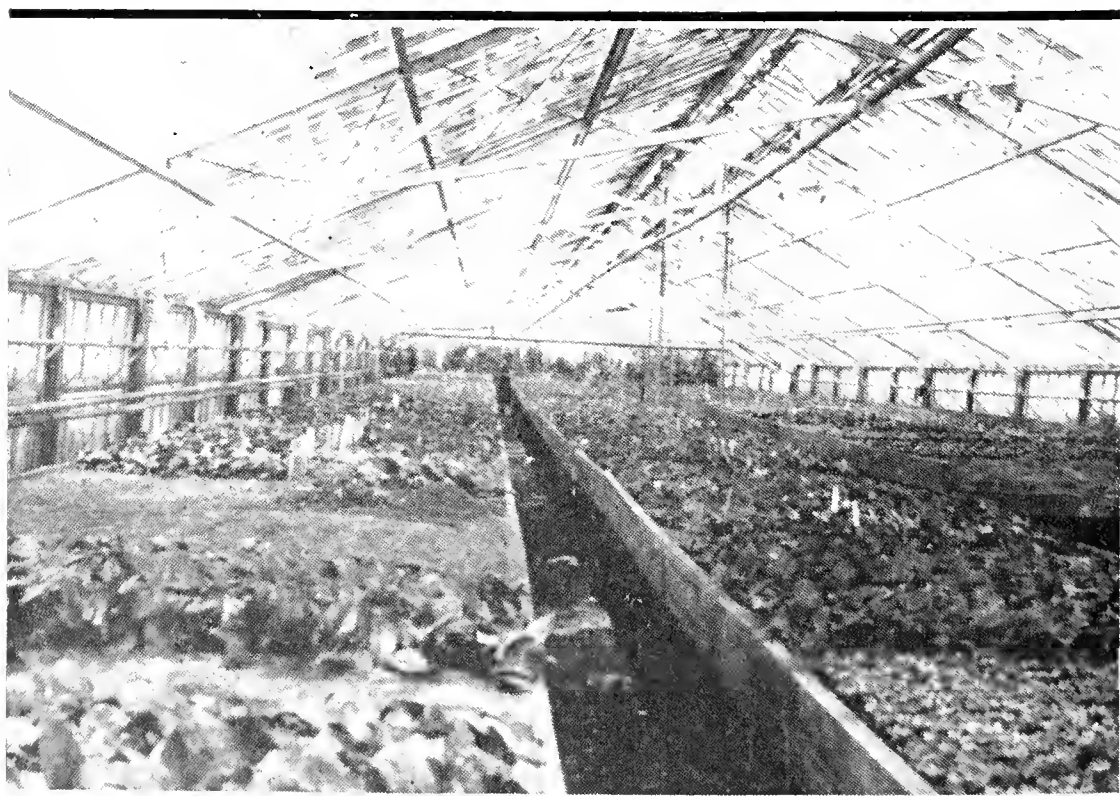

We will book orders provided a deposit of 25% is made at the time the order is booked. Full payment being due at time order is shipped.

C. O. D.—We do not ship orders C. O. D. unless a cash payment of 25% accompanies the order.

Guest House

This is a picture of our guest house we have just built for the convenience of our truck customers who come from points in Mississippi, Louisiana, Texas, Georgia, Florida and other distant points. Here we have provided for them three bed rooms, a shower and a little refreshment so that they can spend the night or rest a while before starting their long drive back home. We will gladly have our customers use these accommodations without any cost whatsoever to them. We hope you will use it and enjoy it.

One of Our Propagation Houses

AZALEAS

Mobile has become famous for its Azaleas, and each year during the blooming season the city is crowded with visitors from all parts of the country who come to see them. This is due largely to the great beauty of the Azalea Indica we call "Pride of Mobile," which we believe is the most beautiful Azalea in the world, and by far the most regular and prolific bloomer. Azaleas require an acid soil and will not survive in an alkaline soil. They cannot be planted where there are oyster shells, lime mortar, or refuse from cement. They will not stand watering with an alkaline water. Azaleas like a well drained soil with plenty of water. They will not prosper if planted near water oaks, pecan, and other trees that absorb a great deal of moisture, unless they are watered regularly during dry spells. They do well with live oaks and pine trees, and shrubs whose roots are not too consuming. Azaleas stand a varying amount of cold, so the variety should be selected according to your climate. The Pride of Mobile has prospered here for a century, but other varieties that have flowers of exactly the same shade are subject to damage from cold. The Kurume Azaleas stand much more cold than the Indica, but never grow as large, and for this reason can never make such a wonderful show in a garden as the Indica Azaleas.

AZALEA INDICA

PRIDE OF MOBILE—WATERMELON PINK—The finest and most beautiful of all Azaleas. It is a regular and profuse bloomer, even small bushes are covered with flowers. This variety does not commonly grow in a mound shape, but in artistic tiers, so that when it is in full bloom it looks like a floral design. Very hardy. We have the true Pride of Mobile which is much better than many watermelon pinks sold for it but are not as hardy.

ELEGANS—LIGHT PINK—A fast upright grower, and one of the first to bloom. There are a number of very large bushes in Mobile that are covered with beautiful flowers every year.

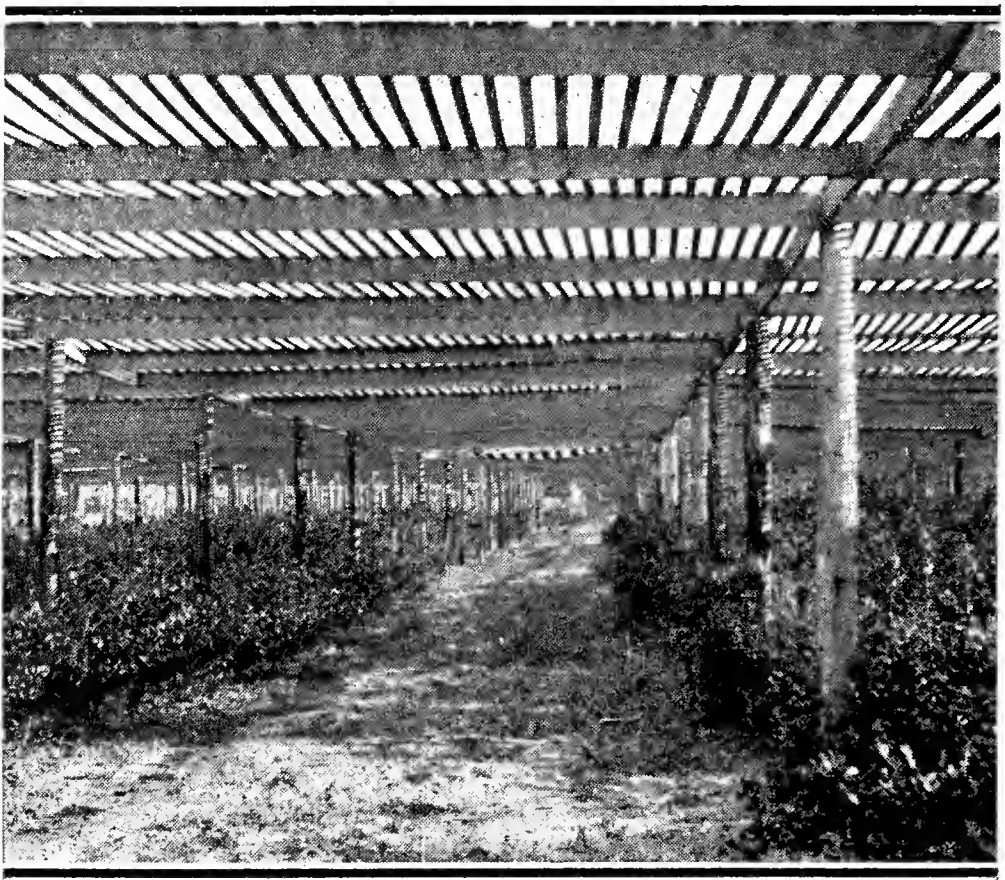

FISHER PINK—LIGHT PINK—Blooms mid-season about same time as Pride of Mobile, large flowers, profuse bloomer, compact grower, very hardy, one of the best.

LADY EDITH—Variegation of pink, shell pink and white, compact, individual flowers very beautiful, glossy leaves, blooms over long season.

FORMOSA — LIGHT PURPLE WITH PINK
CAST—Large flowers, large dark green leaves, fast dense grower.

ORCHID — LIGHT ORCHID—Medium sized flower, early bloomer, fast upright grower.

INDICA ALBA—Pure white flowers, light green, hairy leaves, upright grower, mid-season bloomer.

One of Our Azalea Lath Houses

LATANA ALBA — WHITE — Dwarf, bush grower, late bloomer.

PRIDE OF DORKING—CARMINE RED—Late bloomer, compact grower, does not stand as much cold as some.

MOSS POINT RED—ORANGE RED—Compact grower, dark green leaves, large, waxy flowers, late bloomer.

DAPHNE SALMON — LIGHT SALMON—Fast, compact upright grower, very hardy and blooms profusely. One of the finest of the Indica family.

DUC DE ROHAN — SALMON PINK—Compact grower, small dark green leaves, does not stand cold very well, but makes a beautiful pot plant.

PRINCE OF ORANGE—Flowers large and a very rich orange red. Low, compact grower, late bloomer.

We have thousands of large specimen plants of the Pride of Mobile, Elegans, Daphne Salmon, Duc de Rohan, Lady Edith, and others. If interested in a quantity, it will pay you to see them. Write us what sizes you are interested in.

HARDY JAPANESE AZALEA

HARDY FIREFLY — Dark scarlet single flower of fair size. Compact grower and very hardy.

MACRANTHA—ORANGE RED AND DOUBLE —Compact and fast grower, medium size. flowers late in the season.

YAYE-GIRI—Semi-double, salmon red, very profuse bloomer hose-in-hose, flowers in mid-season.

KURUME AZALEAS

APPLE BLOSSOM—Flowers a beautiful shade of pink, with lighter shadings toward the center. Compact grower, late bloomer.

CARMINE PRINCE—Deep red single flowers of large size. Glossy dark green leaves. Mid-season bloomer.

CHRISTMAS CHEER—Free bloomer of the brightest red, hose-in-hose type flowers. Small dark green leaves. Midseason.

CHERRY BLOSSOM—Delicate shade of pink, shades into white toward the center. Late flowering.

CORAL BELL—Beautiful shell pink flowers of the hose-in-hose type. Small glossy foliage, and compact grower. One of the best.

HINODEGIRI—Brilliant red flowers. Profuse bloomer, low bushy plants. Midseason.

HORTENSIA—Soft pink, hose-in-hose flowers in dense clusters, a compact grower. Midseason.
PEACH BLOW—Single flowers of a beautiful shade of peach-pink, and having ruffled edges. Early.

PINK PEARL—Beautiful salmon, hose-in-hose flowers, produced in large clusters. Fast grower, early.

SALMON BEAUTY—Large hose-in-hose deep salmon flowers, large glossy green leaves. Midseason.

SALMON QUEEN—Very much like salmon beauty, except has single flowers. Earlier bloomer.

SNOW—Pure snow white hose-in-hose type, compact grower and profuse bloomer. Mid-season.

SWEET BRIER—Medium size single pink flowers. Very hardy.

CAMELLIA JAPONICA

We have approximately 125 varieties of Camellias, and over 200,000 plants, but in most varieties we only have small plants so we are not listing many this year. If you are interested in any that we do not list, we may be able to furnish what you want.

RARE CAMELLIAS

C. M. HOVEY—Very double with a high pointed center. The huge flowers are a uniform shade of brilliant scarlet, the very large petals being beautifully veined and textured. Some of the flowers occasionally show small white markings. We have only a few plants at the following price:

14-18 inch.....\$ 2.25 each

COLONIAL FIERY—A large fiery red Camellia of outstanding beauty. The flower is perfection in form with many petals closely imbricated. The leaves are long and narrow, the new growth having a decided red coloring when it is very tender. One of the best. Available in only 12-18 inches size.

FANNY BOLIS — Large red semi-double flowers, blotched with white, with enormous petals loosely arranged. Sometimes it goes under the name of Madam Neihart in this section of the country. 12-15 inch and 15-18 inch sizes only.

LADY HUME'S BLUSH—A medium sized full double flower of a beautiful shade of blush pink, almost white. This is the most difficult variety to propagate, but once grown it is a gem in any collection.

NAGASAKI—One of the finest and prettiest of all Camellias. Big semi-double blossoms with large thick crinkled petals ranging from snow

white to carmine. The leaves are large round thick, deep rich glossy green with some bright yellow variegation.

ST. ELMO—Peony form—very large, full and round. A beautiful shade of pink, tall fast grower with large round waxy leaves. The original bush from which our cuttings were taken belonged to Mrs. Augusta Evans Wilson and so we have named this wonderful camellia after her famous novel.

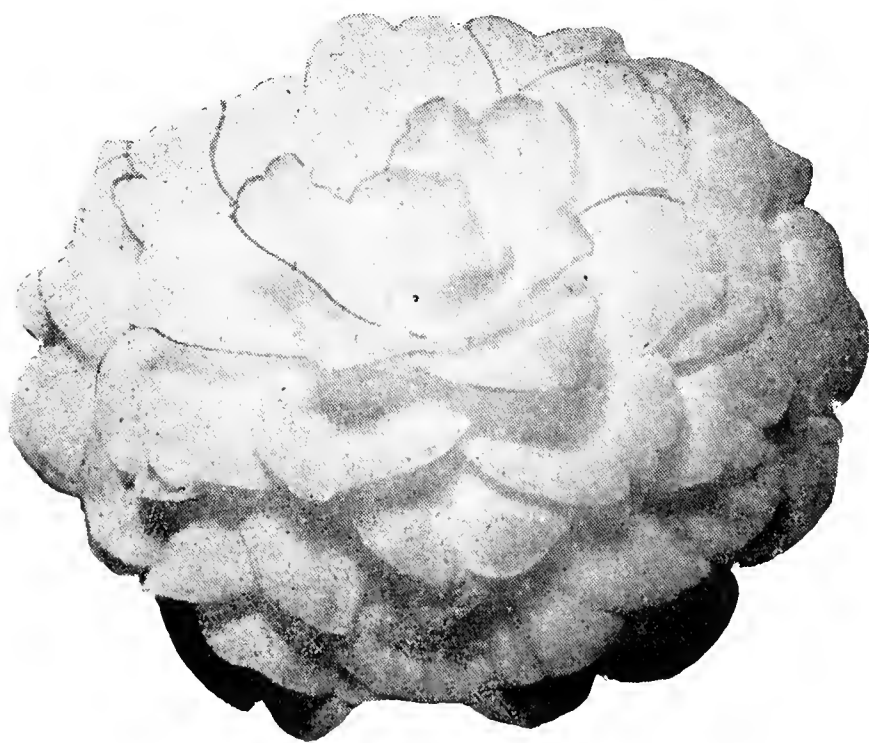

SCARLET O'HARA—Large flower of deep scarlet with an occasional splotch of white, perfection form with many petals closely imbricated. A very rare and beautiful late bloomer.

Prices of Rare Camellias:

	Each	10
3-5 inch. 2½ inch pot.....	\$.50	\$.40

18-24 inch. B & B.....	2.25

GROUP I

ALBA PLENA—The finest, wax-like pure white Camellia, full double four inches in diameter and fine for cut flowers. Harder to propagate than most varieties. Up to 18-24 inch size. We have some larger specimens up to seven feet that we will quote a special price on.

Alba Plena

ANNA ZUCCHINI—A double white Camellia with flowers about 3 inches in diameter. Flowers are rose form and composed of a group of outer petals, with a tuft of narrow petaloids about one half inch long in the center. Up to 18 inch.

BELLA ROMANA—A medium sized Camellia with large petals, profusely striped and splashed with streaks of crimson. Some of the California nurseries rate this as their best variety.

CAMEO PINK—A lovely double Camellia of a very delicate shade of pink. This is an unusual Camellia in that it resembles a water lily. We have only the smaller sizes to offer in this variety. Up to 18 inch.

CHANDLERII ELEGANS—Variegated, cherry red to light pink, 5–6 inches in diameter, loose peony form, center petaloids interspersed with yellow stamens, heavy bloomer, dark green shiny foliage. A marvelous flower.

COUNTESS OF ORKNEY—A double white striped with pink. A very slow grower with a lustrous dark green foliage. This is a fine greenhouse variety where the flowers reach perfection. Up to 12–18 inch size.

EMPRESS OF INDIA—Peony shaped flowers of a very unusual shade of salmon. 12–18 inch size only.

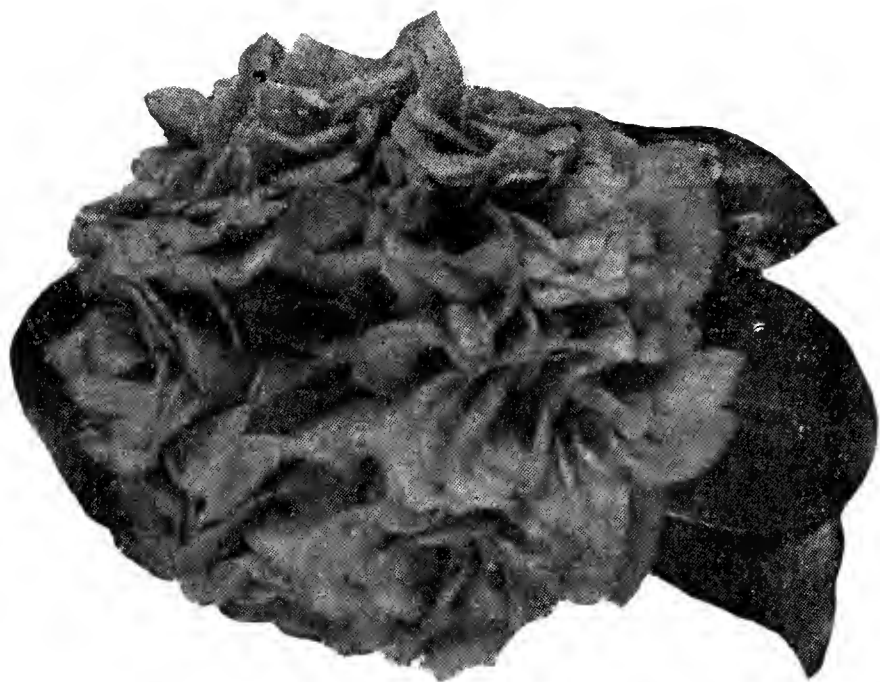

CONCORDIA—A beautiful pink and white variegated flower of peony form. The individual flowers on the bush vary both in form and in color. Occasionally there is an all pink flower. This is also a fine greenhouse variety although it does well outside. 12–18 inch size only.

HERME—White with red and pink stripes and splotches, large semi-double. Early bloomer, tall rapid grower.

LADY ALICE—Peony form double red. Up to 12–18 inch size.

MONARCH—(GRUNELLI)—Variegated, deep pink and white interspersed with stamens. One of the largest and most beautiful of all Camellia blossoms. The plants grow compact and round. Up to 18–24 inch specimen.

PROF. C. S. SARGENT—DARK CRIMSON RED—Thick peony form, medium to large, free bloomer, hardy, very fine. We have plants up to 8 feet.

Prof. C. S. Sargent

PINK PERFECTION—Double wax-like flowers of delicate shell pink. Perfection in form 2½–3 inches in diameter. Blooms from November to March. Blooms young and regular. The ladies' favorite. We have some large specimen plants full of buds.

REINE DES FLEURS—Very double, high-centered flowers of rich vermillion red, flaked white. Buds heavily. 12–18 inch size only.

TRICOLOR SIEBOLDI—(WAKANOURA VAR.)—Semi-double variegated pink, red, and white in combination and often solid colors. A handsome green foliage with long narrow leaves that are twisted and coarsely serrated.

SEVERAL GOOD VARIETIES THAT WE HAVE NOT FOUND A NAME FOR. For convenience we use our local nursery names.

ROSS—A double pink Camellia with occasional spots of white. The flower is large peony form with the petals loosely twisted. The stamens

Pink Perfection

Herme

are intermixed with the petals. Plants do not bloom while young, but the flowers are beautiful and have long stems. One of the latest to bloom.

FISHER’S ROSE—Flowers very similar to Marchioness of Exeter, and sometimes sold under this name. A tall fast growing bush with long leaves. The flowers are rose color and are composed of several rows of guard petals around the outer edge and a large tuft of petaloids in the center.

GROUP II

ABBY WILDER—Peony shaped double white flowers of medium size. Some of the flowers have an occasional stripe of pink. This is a fast grower, and makes a fine bush.

ANNA FROST—Semi-double, large loose peony type, dark blood red in color. Large, round and thick green shiny leaves.

AUSTIL PINK—Medium pink, carnation form with stamens. Fast hardy grower.

BEALIE ROSEA—Double rose pink, which when first opening the flowers resemble a rose bud. The natural habit is for this variety to grow into a round compact bush.

CANDIDISSIMA—Often called Star White as the petals are arranged so as to resemble a star. A late bloomer.

COLONIAL PINK—Often sold as Gloria de Nantes, but not the same. The flowers are medium size, rose colored, and semi-double. The foliage is dark green, and makes a beautiful evergreen.

DUC DE ORLEANS—A semi-double pink and white, often solid pink. It is a very free bloomer.

ELIZABETH—Porcelain white, occasionally a flower will have some pink, or there may be an all pink bloom. The edges of the petals are incurved. A beautiful flower and a handsome evergreen.

GLORIA DE NANTES (Lena Superba)—VIVID RED—Large semi-double, thick dark green waxy leaves and very compact grower.

JARVIS RED—Deep scarlet red, semi-double with yellow stamens. Heavy bloomer and a beautiful garden variety.

KELLINTONIA—Red and White peony type. Blooms heavy every year, grows rapidly and compact with dark green glossy leaves.

Prince Eugene Napoleon

MATHOTIANA ALBA—Large double white. A beautiful flower, but flowers do not open well unless grown in a shady place. Large leaves of a waxy texture and a vigorous grower.

NOBBLISSIMA—Double white, petals twisted and intermixed through stamens. Blooms freely and early.

PRINCE EUGENE NAPOLEON—POPE PIUS IX)—Scarlet, full double, heavy bloomer and good grower. One of the best. In this variety we have extra fine plants up to seven feet high and very full and compact.

SARAH FROST—Double rose red.

SINGLE RED—Medium size flower with large petals and circle of yellow stamens in center.

SINGLE WHITE—Dark green foliage, medium size white flowers. 12–18 inch only.

CAMELLIA SASANQUA

MINE-NO-YKI—Solid white loose to full peony form.

ROSEA—Single pink flowers with stamens resembling Cherokee Rose.

6–8 inches C. T.....	\$1.50	\$12.50
8–12 inches C. T.....	1.75	15.00

ABELIA GRANDIFLORA—One of our very best evergreen shrubs for foundation plantings, corner groups, single specimens, or ornamental hedges. The small leaves are bright, glossy green and cover the plant the greater part of the year. The flowers come in early May and the plant seems to be covered with bloom until late autumn. Does well when sheared.

12–18 inch.....	\$1.25	\$10.00
18–24 inch.....	1.50	12.00
2–3 feet, Bushy.....	2.00	17.50

ACUBA JAPONICA—A small evergreen shrub with large green leaves beautifully spotted with yellow. It does the best if planted in a shady

place, and is very suitable for planting in an urn or window box.

	Each	10	100
8-12 inch C. T.	\$.55	\$5.00
12-18 inch B & B.80	7.50
18-24 inch B & B.	1.10	10.00

BERBERIS THUMBERGI ATROPURPUREA—(RED LEAVED JAPANESE BARBERRY)—The leaves of this beautiful plant are dark bronzed, making it a very showy plant in any garden. It also can be used as a hedge plant, as it does well when trimmed.

6-8 inch. C. T.	\$.75	\$ 6.00
8-12 inch. C. T.	1.00	8.00
12-18 inch. C. T.	1.25	10.00

An Evergreen Planting

BUXUS JAPONICA—A fast growing box with light colored roundish green leaves. The good qualities of this box are that it grows fairly fast, and when sheared it makes a very compact plant. It is especially good for a low hedge. We do not recommend it where there are nemetodes.

BUXUS SEMPERVIRNES—(ENGLISH BOXWOOD)—A slower growing box than the Japanese box, but a very handsome plant. The leaves are a very dark green and pointed. It is an upright grower, and when small it is especially adaptable as a border plant.

Prices for both Buxus:

	Each	10	100
4-6 inch. C. T.		\$.65	\$ 5.00
6-8 inch. C. T.80	6.00
8-10 inch. C. T.		1.00	8.00
10-12 inch. C. T.		1.25	10.00
12-18 inch. B & B	\$.85	7.50

CALLISTEMON—(BOTTLE BRUSH)—In April this plant produces long, cylindrical brilliant red brush like flower-spikes which give it the name of “Bottle Brush”. The evergreen foliage is narrow and dark green. A very attractive plant that has to be planted when small, or from a pot, as it does not transplant well.

12-18 inch 3 inch pot		\$1.25	\$10.00
-----------------------------	--	--------	---------

CLEYARA JAPONICA—Fine evergreen shrub having thick, dark glossy green leaves with red midrib. The small flowers are creamy white, and are followed by red berries in the summer. Our plants were grown from cuttings off of specimen plants.

8-12 inch. C. T.		\$1.00	\$ 8.00
12-18 inch. C. T.		1.25	10.00
18-24 inch. B & B	\$ 1.00	8.50

ELAEAGNUS PUNGEN MACULATA—(YELLOW CENTER ELAEAGNUS).

ELAEAGNUS PUNGENS VARIEGATE (YELLOW EDGED ELAEAGNUS)—Both of the above are variegated, one having a yellow center with green on the edges, and the other with the yellow around the green. This is a light colored spreading evergreen shrub that shows up well among other darker evergreens.

6-8 inches C. T.		\$1.00	\$ 8.00
8-12 inches C. T.		1.25	10.00
18-24 inches B & B	\$ 1.00	8.50

ERIOBOTRYA JAPONICA — (LOQUAT)—A fine shrub or small tree which grows to about twenty feet in height. It has large thick dark glossy green leaves that are coated with tiny gray colored hairs underneath. Makes a compact tree of pyramidal shape, and produces an abundance of delicious orange colored fruit of about plum size.

6-8 inch. S.		\$1.00	\$ 8.00
8-12 inch. S.		1.25	10.00
12-18 inch. S. T.		1.50	12.00
2-3 feet B & B	\$ 1.00	8.50

GARDENIA FLORIDA—The well-known Cape Jessamine of the South. Its dark, shiny foliage and white, sweet scented flowers have made it a favorite for many years.

	Each	10	100
6-8 inches C. T.....		\$.60	\$ 5.00
8-12 inches C. T.....		.85	7.00
12-18 inches C. T.....		1.00	9.00
18-24 inches B & B.....	\$.50	4.00	
2-3 feet B & B.....	.75	6.00	
3-4 feet B & B	1.00	7.50	

GARDENIS MYSTERY—Has the same shiny green foliage as Gardenia Florida, but a much larger and superior flower.

8-12 inches C. T.....	\$1.50	\$10.00
12-18 inches C. T.....	2.00	15.00

GARDENIA VEITCHII—A winter blooming gardenia, used by florist.

6-8 inches 2½ inch pot.....	\$1.25	\$ 9.00
8-10 inches 3 inch pot.....	1.75	14.00

HIBISCUS CHINENSIS — A fast growing showy shrub with glossy leaves and producing gorgeous colored flowers 4-5 inches across. These plants have an abundance of striking flowers throughout the entire summer.

Single Red. Double Red. Single Salmon.

8-10 inches in 3 inch pot....	\$1.10	\$10.00
-------------------------------	--------	---------

ILEX CORNUTA BUFORDI.

ILEX CORNUTA FEMINA—A dwarf compact holly with exceptionally dark, shiny foliage. Older plants produce an abundance of large red berries that are very showy. Buforde differs from the regular holly in that it has only one spine to a leaf. A very striking shrub for foundation plantings, or as lawn specimens.

6-8 inches C. T.....	\$1.00	\$ 8.00
8-12 inches C. T.....	1.25	10.00
18-24 inches B & B.....	\$.80	7.50
2-3 feet B & B.....	1.75	15.00

ILEX OPACA FEMINA—(AMERICAN HOLLY)—We have selected our cuttings from trees which have berries, so that our plants will be sure to be berry-producing plants.

8-12 inches C. T.....	\$1.20	\$10.00
12-18 inches C. T.....	1.50	12.00

ILLICIUM ANISATUM—A handsome evergreen with broad, light green leaves which, when bruised, emit an anise fragrance. Very desirable.

6-8 inches C. T.....	\$1.00	\$ 8.00
8-12 inches C. T.....	1.25	10.00

LAURUCERASUS CAROLINANA—(CHERRY LAUREL)—A splendid broad-leaved evergreen tree with bright, shiny leaves, reaching a height

of 30-40 feet. May be pruned to any desired size or shape, and is a fine hedge plant.

	Each	10	100
6-8 inches S.....		\$.40	\$ 3.00

2-3 feet B & B.....	\$.55	3.50	30.00

LIGUSTRUM LUCIDUM COMPACTUM—
(WAX PRIVET)—This is the well known wax privet so extensively planted in the last few years. Its dark green foliage and adaptability to almost any location makes it a very useful shrub.

6-8 inches C. T.....		\$.40	\$ 2.50
8-12 inches C. T.....		.60	5.00
12-18 inches C. T.....		1.75	15.00
18-24 inches C. T. Field.....		2.50	17.50
18-24 inches B & B.....	\$.50	4.00
2-3 feet B & B.....	.65	5.00
3-4 feet B & B.....	1.00	8.50

MAGNOLIA FUSCATA—(BANANA SHRUB)—An evergreen shrub or small tree of conical shape growing to about 30 or 40 feet high. The leaves are small and the foliage dense. In the spring of the year the tree is covered with a yellow fruit which has a banana like odor. A beautiful evergreen and a favorite for many years in the South.

6-8 inches C. T.....		\$1.00	\$ 8.00
8-12 inches C. T.....		1.20	10.00
18-24 inches B & B.....	\$ 1.00	8.50
2-3 feet B & B.....	1.25	10.00

NANDINA DOMESTICA—It is one of the best of all foundation plants. The leaves resemble a maiden hair fern and can be used for decoration in the house. The foliage is dense and during all the winter months the plant is beautiful with clusters of red berries. It is one of the healthiest of all shrubs. It will prosper in bright sun and in partial shade. No planting is complete without it. It requires very little attention.

4-6 inches S. T.....		\$1.75	\$ 6.00
6-8 inches S. T.....		.85	7.00
8-12 inches S. T.....		1.20	10.00
18-24 inches B & B.....	\$.60	5.00
2-3 feet B & B.....	1.00	8.00
3-4 feet B & B.....	1.50	12.50

OSMANTHUS FRAGRANCE—(SWEET OLIVE)—A plant that every one should have in their garden. It is an evergreen shrub with bright glossy thick foliage and small white or yellow

flowers that are very fragrant. Several of these plants will fill the air of the entire garden with a pleasing odor during the winter and spring. The plants require very little care, and are not attacked by any injurious diseases.

	Each	10	100
6-8 inches C. T.....	-----	\$1.00	\$ 8.00
8-12 inches C. T.....	-----	1.20	10.00

DECIDUOUS

LAGERSTROMIA INDICA—(CREPE MYRTLE)—A popular and free-flowering shrub or small tree, which produces blooms in great abundance throughout the summer. The flowers are beautifully fringed and are borne in large clusters. A massing of these, or a single specimen, makes a most striking effect. Commences to bloom in June and lasts throughout the summer. We have the watermelon red variety which is the very best.

12-18 inches, Bare Root.....		\$1.25	\$10.00
18-24 inches, Bare Root.....		1.50	12.00
2-3 feet, Bare Root.....		1.75	15.00
3-4 feet, Bare Root.....	\$.40	3.00	25.00
4-5 feet, Bare Root.....	.50	4.00	35.00

SPIREA REEVESIANA—(BRIDAL WREATH)—A very handsome shrub with large pure white double flowers covering its slender arching branches. As it blooms just when the Azaleas are in the height of their glory, it makes a splendid combination with them. This is the best variety for this section of the country.

2-3 feet bushy B & B.....	\$.50	\$3.50	
3-4 feet bushy B & B.....	.75	5.00	

VINES, LEAVES, ETC.

BOUGAENVILLEA, CRIMSON LAKE—The best Bougaenvillea. Very rich brilliant crimson like color and more profuse bloomer than any other variety. Florists grow it in pots for holiday trade, while in Southern Florida and Southern California it is raised outside as a climbing vine.

6-8 inches, 3 inch pot.....		\$1.00	\$ 7.00
-----------------------------	--	--------	---------

FICUS REPENS—(CLIMBING FIG)—One of the best vines in the south to cover stone or brick walls. The leaves are small and dark

green, and makes a very effective cover for foundations and other parts of a house. A fast grower, but will not stand much cold.

Each 10 100

6-8 inches, 2½ inch pot..... \$.75 \$ 6.00

RHYNCOSPERUM JASMINOIDES—Ever-green with beautiful dark green leaves, white star-shaped flowers that cover the vine and are very fragrant.

3 inch pots..... \$1.80 \$15.00

ASPIDISTRA LURIDA—Large dark green leaves that are excellent for planting in urns.

Price per good leaves..... \$.60 \$4.00

CORTADERIA AGENTEA—(PAMPAS GRASS)
—A grass that grows in handsome clumps 6-8 feet high. In the early fall it puts out a number of silvery plumes which last through the winter. Very ornamental for screens or as individual specimens.

Small division..... \$.75 \$ 6.00

Medium division..... 1.25 10.00

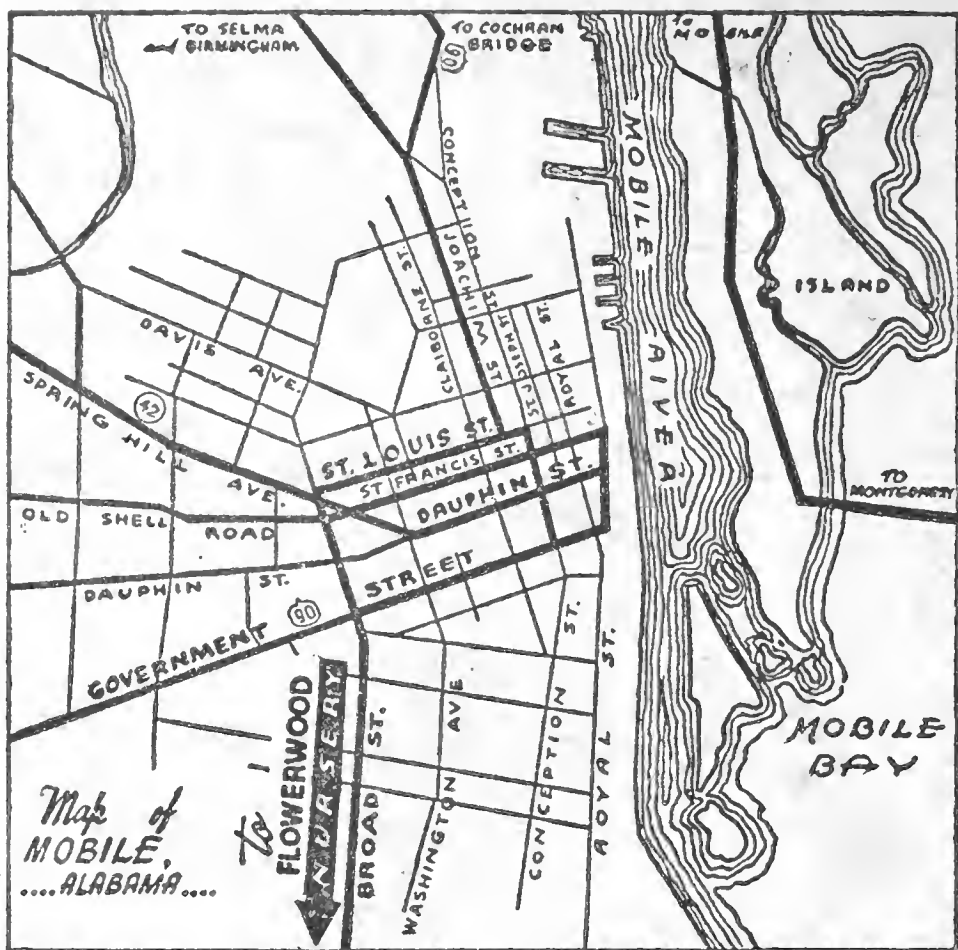

OPHIOPOGAN JABURAN AUREA VARI-EGATA—Very beautiful and useful as a house plant, also as outdoor border in the South. Its deep violet-blue flowers are freely produced in dense spike formation during the summer. While the deep blue berries show excellent contrast to the drooping broad grass-like leaves striped with green and creamy white.

Small division..... \$1.00 \$ 7.50

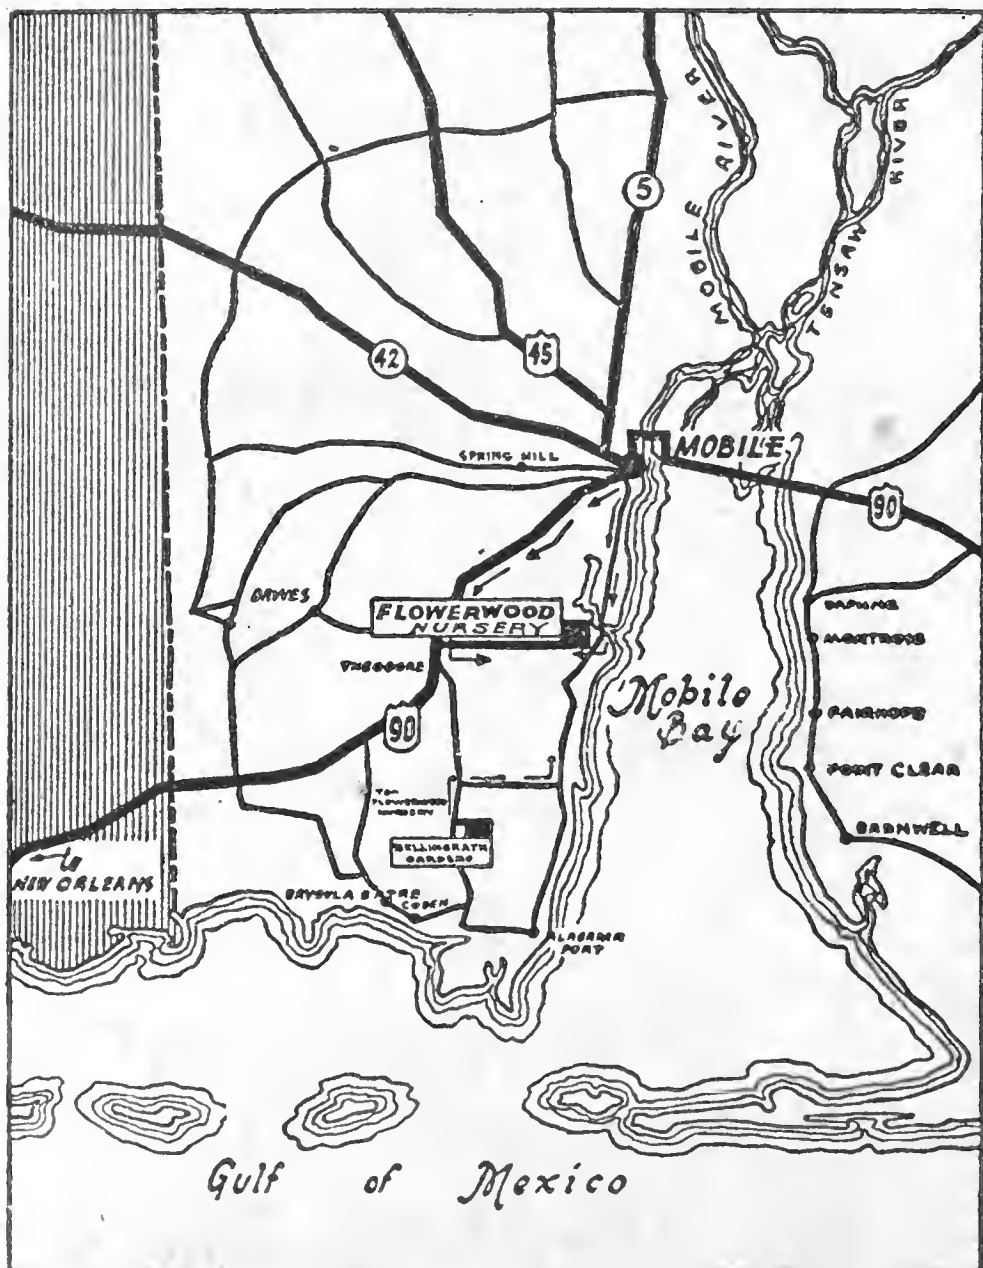

Medium division..... 1.25 10.00
